Dear Applicant:

This letter is in response to your application for a permit to import processed dried peels; ground peels; powdered peels of: *Echinopsis pachanoi* and *Echinopsis peruviana* for processing for cacti leather use from Peru. We are pleased to inform you that Plant Protection and Quarantine (PPQ) does not require a permit for the importation of this material.

All articles must be declared, identified, and available for inspection at the U.S. port of arrival. Upon arrival in the United States the plant materials will be subject to inspection by representatives of Customs and Border Protection, Agriculture Quarantine Inspection (CBP-AQI) or Plant Protection and Quarantine (PPQ).

In addition to this letter, genetically engineered plant materials regulated by 7 CFR Part 340 must be imported with a valid APHIS 2000 Permit or Notification. Please call (301) 851-3935 or email Biotechquery@usda.gov for more information.

For further information about miscellaneous products visit our website at:
http://www.aphis.usda.gov/import_export/plants/manuals/ports/index.shtml

For additional questions, call our automated phone system at:
1-877-770-5990.

Sincerely,

A handwritten signature in black ink that reads "Bonita G. Davis".
